

# Forklift Training Course

## ONE DAY CLASS AT YOUR FACILITY

Our in-person forklift operator class consists of a **classroom module** and a **practical/driven module**. In the practical module, students learn about forklift safety, design, maintenance and inspections, and the use of a lift truck. We look at case studies and accident investigations.

Following the classroom portion, we have a practical/driven module where students do a pre-shift inspection as a group. LPG Fuel – remove and replace bottle demonstration is performed, if required. We shift from a group session to individual training after the pre-shift inspection. This allows the other students to return to work. Each driver spends from 15-45 minutes in the driving review, depending on the operator's experience.

Upon successful completion of the class your operator receives a training certification card, valid for 3 years.

**Course timing** Classroom module: 3.5 hrs plus 15 minute coffee break. Practical/driven module: 20 minute pre-shift walk around inspection, 15 minutes per experienced driver and 30-45 minutes for inexperienced/new drivers.

**Requirements** Minimum of 3 students, max of 8; lunch room/board room for classroom module; dedicated open area for practical module and use of forklift
